

## March 2012 editorial highlight

Issue date : 3/12/2012 Ad close : 2/15/2012 Mat due : 2/22/2012

### features

Annual Review and Forecast: Economic aftershocks keep laser markets unsettled

Biophotonics: Super-resolution STED microscopy advances with yellow CW OPSL  
-Max Planck Institute for Biophysical Chemistry, Coherent

Fiber for Fiber Lasers: Matching active and passive fibers improves fiber laser performance  
-Nufem

Mid-IR Sensing: DFB laser diodes expand hydrocarbon sensing beyond 3 um  
-nanoplus GmbH

Frequency Combs: Frequency combs make their way to the masses

Circulation : 12,000

\*Also, articles on High-Speed Detectors, Polarimetry, Interferometry are included.

### 2012 Ad Rate

- |                      |                  |
|----------------------|------------------|
| • 1P4C(ROP) : \$3300 | 1PBW : \$1650    |
| • 1/2P4C : \$2200    | 1/2P BW : \$1320 |
| • 1/3P4C : \$1650    | 1/3P BW : \$1050 |

\* Ask your sales reps about the frequency discount!
